

COLLINS DONNER

Since 1972

The Original Hi-Speed® Dolly

Reinventing the Collins *Hi-Speed® Mini Dolly!*

**The *damage-free* solution to loading Carriers:
Rolling, instead of *dragging* vehicles up flatbeds.**

For vehicles
with wheels
and
tires...

Telescopic and Self-Loading

Only
26 lbs.

Carrier Dolly
Patent No. 8910957

Perfect for vehicles with
low ground clearance or
nowhere to hook. Vehicle
simple rides the dolly!

... or not!

Tow Cradle Optional

Tow Cradle
Pat. No. 8,337,135

No further need for 4x4 boards and chains.
Tow Cradle is very fast and very efficient.

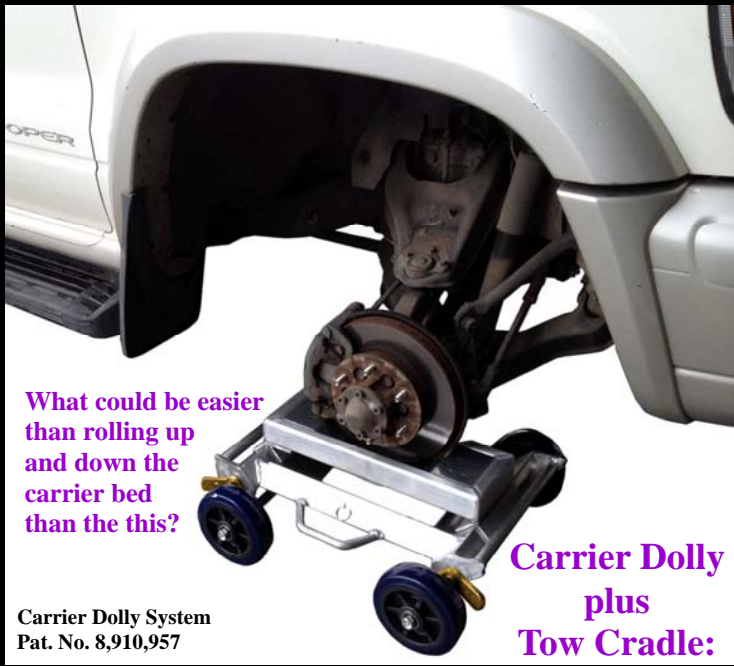

**Car Dolly
Doubles as a
Motorcycle Dolly!**

**Tow Hook Adaptor passes through
Tow Bar directly to Carrier Dolly**

Patent No. 8,910,957

**What could be easier
than rolling up
and down the
carrier bed
than the this?**

**Carrier Dolly
plus
Tow Cradle:**

Carrier Dolly System
Pat. No. 8,910,957

**A Perfect
Combination!**

Tow Cradle
Pat. No. 8,337,135

**Carrier
Dollies
along
with
Tow Cradles,
allow for greater
height clearances
while loading vehicles**

**without tires
and wheels
onto
Carrier bed.**

**Collins' Patented design allows for damage-free towing at its best ever!
No hooks, chains, or cables, ever touch the vehicle. Winch force on dollies only.**

A Tale of Mini Dollies:

**From the Collins 1972
design archives of the
world's first Self-Loading
Dolly, comes one
completely new for 2014.
Streamlined in 6061-T6
aircraft-grade
aluminum, this innovative
system is designed
specifically for
Car Carrier operations.**

**42-Year
Anniversary
Of
Collins Dolly
Innovations!**
