

Collins

Collins
Hi-Speed® Dolly

The World's Most Advanced® Dolly

Heavy Duty Dolly for Extreme Conditions and Uses

Hi-Speed® SLZ The World's Most Popular Dolly

The Hardest Working Dolly

When Price and Performance Matter

Get the greatest performing and Most Advanced® dolly, without overpaying.

The ONLY Freeway Dolly

When Distance Matters

Collins Hi-Speed® Dollies are the ONLY APPROVED dollies for highway, freeway, and interstate roads. The Collins SLZ and G7 dollies are both rated for a max 65 mph while the G7X is rated for 75 mph. Only Collins Dollies are approved for unlimited distances. Other dollies explicitly state they are NOT approved for freeway use, speeds, nor distances.

The Highest Capacity Dolly

When Capacity Matters

5.00E Capacity:	Collins 5,000 lbs	Others: None
5.70D Capacity:	Collins 4,280 lbs	Others: 4,000 lbs
4.80D Capacity:	Collins 3,968 lbs	Others: 3,040 lbs

The Safest Dolly

When Professionalism Matters

Collins' Safety Ratchet System, allows you to safely and comfortably raise heavy vehicles, operate in all types of weather, lift against a wall or barrier, and prevent accidents and injury while lifting and towing vehicles. The Safety Ratchet System is Collins' only "extra parts" and are recommended, but optional for use.

The Most User Friendly Dolly

When Versatility Matters

All Collins Cross Rail pairs work with all Collins dollies. Tires and wheels are interchangeable, so any size tire works with any dolly model. Collins Dollies are built for easy maintenance and repair; and are backed by the industry's best warranty and customer service. That means less downtime—and more time on the road.

The Widest Dolly

When Size Matters

Collins' T10 Cross Rails provide 90" of usable span. The T12 Cross Rails extend even wider, providing 104" of usable span, accommodating utility trailers, extra wide vehicles, boat trailers, and dually trucks. Only Collins provides patented double True Positive Camber, designed to keep loads safe and dolly wheels vertical, resulting in extended tire life.

The Lightest Dolly

When Health Matters

The scales don't lie. Collins offers the lightest-weight dollies in the industry, helping make the job easier, safer, and faster for operators.
